

REMARKS

To place the application in better condition for examination, section headings have been added to the specification, and the claims have been amended to remove multiple dependencies and otherwise place them in more conventional U.S. format.

When the PCT application was filed, page 3 of the original French priority application was inadvertently omitted, resulting in the partial sentence at the top of page 4 of the English Translation. That omission is being corrected by the amendment presented herein. It is respectfully submitted that this amendment does not introduce new matter, since it pertains to the description of the prior art and is not essential to the claimed subject matter. Furthermore, it is fully supported by the original French priority application, which is incorporated by reference.

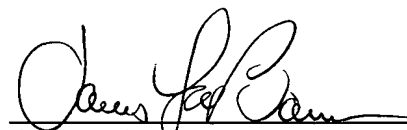

Favorable consideration of the claims is respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
